Product Change Notice

Issue Date: 16th July 2007

Change Type:
Mask change for AMMC-5024.

Parts Affected:
All options of AMMC-5024.

Description and Extent of Change:
As shown in diagram below:

Reasons for Change:
To improve high power RF robustness and ESD level with larger termination.

Effect of Change on Fit, Form, Function, Quality, or Reliability:
There will be specifications change on various parameters as shown below. Appropriate electrical characterization and reliability qualification will be performed on representative products to insure normal parametric distribution, consistent electrical performance, and reliability.

These changes have been reviewed and approved by Avago Technologies engineers and managers per Avago Technologies procedure: Change Control and Customer Notification, A-5962-6052-80.

Please contact your Avago Technologies field sales engineer or Contact Center (http://www.avagotech.com/contact/) for any questions or support requirements. Please return any response as soon as possible, but not to exceed 30 days.
