Samples: Upon request and scheduled lead time

DESCRIPTION AND PURPOSE OF CHANGE:

To support an expanded and scalable manufacturing strategy, PLX is adding ASE Kaohsiung to increase its qualified assembly subcontractor capability for the above listed products. With the addition of ASE Kaohsiung , PLX continues to enhance its manufacturing strength and flexibility to meet the requirements of our Customers. The ASE Group is a top tier, well established, and qualified high volume assembly subcontractor in the semiconductor industry. They are ISO9001:2000, TS16949, and ISO14001 certified as well as a Sony Green Partner.

MEANS OF DISTINGUISHING CHANGED DEVICES

RELIABILITY/QUALIFICATION SUMMARY:

Reliability tests per plan (see attachments below) will be performed. PLX has selected two (2) representative package vehicles to represent a full package family qualification across products affected. The die from each product is previously qualified and successfully running in production today. No die qual is required. The only change under evaluation is the additional assembly site located at ASE Kaohsiung, Taiwan.

The selected package family qual vehicles are a 35x35 and 27x27 HS-PBGA, 1mm pitch. The devices are both PCIe Gen 1 Switches. These qualification vehicles were selected based on rules of similarity including the most stringent design rules, larger body sizes and die within the package family. The balance of devices in the affected product list will be qualified by similarity to the 35x35 and 27x27 qualifications.

Note that PLX will subject 3 separate date code lots to the qualification plan per package family qual vehicle. These 3 date codes will be represented by 2 Green lots and 1 Sn/Pb (leaded) each.

CUSTOMER ACKNOWLEDGEMENT OF RECEIPT (optional):

Please FAX the acknowledgement below to Brete Bigley at (408) 962-6857 or E-mail **<u>qa@plxtech.com</u>** or request additional information.

Please note: This PCN is intended to serve as a quality notification to our valued customers and is a part of our continuous quality improvement effort. This PCN does solicit our customer's approval. If PLX does not receive acknowledgement within 30 days of this notice, it will be assumed that this change is acceptable.
