
FINAL PRODUCT OBSOLESCENCE NOTICE**Notification Date JULY 1, 2005**

Dear Customer,

Agilent Technologies announces the obsolescence of the attached Fiber Optic products effective from July 1, 2005. This will also affect customer specials based on these products. Agilent is answering the call for RoHS compliance by being one of the first to introduce RoHS-compliant products. RoHS-compliant platforms will be introduced via new part number, ending with "Z" as the suffix. Existing platform will be obsolete after the RoHS-compliant platform starts to ship. Agilent has started shipping RoHS-compliant parts since May'05

Agilent recommends the transition to RoHS-compliant products for existing and new designs.

The Key Milestones are:

1. Formal customer notification beginning (July 1, 2005)
2. Final customer order date by (January 1, 2006)
3. Final ship date to customer by (July 1, 2006)

Please note that Agilent Technologies reserves the right to limit last time buy quantities based on capacity and material availability. If you have any questions about this obsolescence, please do not hesitate to contact your local Agilent Technologies sales representative or authorized distributors.

Agilent Technologies

Fiber Optics Product Division
