

## Switch SKUs without Fibre Channel Optics

### End-of-Availability Notice Version 1.0

This notice initiates the End-of-Availability (EOA) process for all G610, G620, and G630 Switch SKUs that do not ship with Fibre Channel optics, plus an obsolete rack mount kit. These are low volume SKUs in low usage. Switch FRU SKUs are exempt from this notice.

The EOA for these SKUs does not constitute the elimination of the G610, G620, or G630 product lines. Continued shipment and support for these product lines will not be impacted by this notice.

**NOTE:** The G610, G620, and G630 Switches will continue to remain available, and the End-of-Support (EOS) date will be a function of the eventual End-of-Life (EOL) date for these product lines at some point in the future. Customers with switches that were bought using the above SKUs can continue to renew their support contracts until the End-of-Support date is eventually reached for the G610, G620, and G630 Switches.
