

Specific Program Documentation

The CA software program(s) ("CA Software") listed below is provided under the following terms and conditions in addition to any other terms and conditions referenced on the Order Form entered into by you and the CA entity ("CA") through which you obtained the license of the CA Software. These terms shall, be effective from the effective date of the Order Form.

Program Name: CA AutoSys® Workload Automation

Specified Operating Environment

The CA Software's specifications and specified operating environment information may be found in Documentation accompanying the Software, if available (e.g., a user manual, user guide, or readme.txt or notice.txt file).

Operating System and other platform support information can be found on CA Support at the following URL:

<https://support.ca.com/irj/portal/anonymous/phpdocs?filePath=0/253/autosys-certmatrix.html>

Licensing Model

Per Instance Model (unit)

The CA Software is licensed by the number of instances set forth in the Order Form (the "Authorized Use Limitation"). "Instance" means the number of copies of the CA Software installed in your physical and/or virtual environment.

When CA Software is used on multiple machines (physical and "virtual"), each such use of the CA Software shall be counted for the purposes of determining the Authorized Use Limitation for that Software. A "virtual" PC or server environment is created where Virtual Machine Technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously.

Third Party Information and Terms

The following list identifies various third-party components used with the CA Software you are licensing and sets out certain notices, attributions and/or terms that CA is required to provide to you by the third party licensors of those components, as described in greater detail therein for each such component. For more information, please see <https://support.ca.com/prodinfo/tpterms>.
