

TCS CA Project and Portfolio Management (CA PPM) Offerings

Successfully deliver strategic initiatives across the enterprise by managing dynamic business requirements, global resources, and budgets.

Tata Consultancy Services' (TCS) Project and Portfolio Management (PPM) offerings align CA's PPM solution with your organization's strategic objectives. We deliver consistent business value by enabling effective implementation and management of PPM initiatives and appropriate governance and mechanisms to help you succeed in the global marketplace. TCS can help you roll out CA PPM in phases or quickly deploy packaged service offerings.

About CA PPM

CAPPIM is a platform that enables you to manage your entire innovation lifecycle and make more informed strategic investments. It helps you track and prioritize market and customer requirements and make better decisions on how to invest resources, so you can optimize your enterprise, IT, services, and product portfolio. The platform offers the unified, comprehensive project management capabilities you need to deliver quality initiatives on time and on budget. CA PPM is available via SaaS, on premise, and hosted delivery models.

Benefits for your Enterprise

By integrating processes, systems, people and organizational change, TCS' CA PPM offerings will maximize the value created from business investments and enables other benefits. With strong PPM capabilities in place, you can plan, implement, and manage changes that support current business needs as well as be flexible for changes that occur with the introduction of new business needs.

- Identify and managing major risks and reduced overruns in time and cost
- Control and execute major business program/ project investments effectively
- Manage inter-dependencies between multiple projects with an integrated approach

Our Solution

TCS has vast experience integrating CA PPM with other enterprise systems. We offer:
