

Exam Study Guide

Technical Specialist Exam 250 560:
Clarity

About Broadcom Certification Exams

Broadcom Certification demonstrates the highest levels of technical competency, productivity and industry recognition with increased opportunities for career advancement.

Validate your technical knowledge and competency by becoming a Broadcom Technical Specialist based on your specific area of Broadcom Software technology expertise. To achieve this level of certification, candidates must pass one proctored Technical Specialist exam based on a combination of training material, commonly referenced product documentation, and real-world job scenarios.

Each certification exam is a computer-based examination that gives you the opportunity to demonstrate your mastery of critical skills sets against published exam objectives. Qualified proctors through independent test centers, on Broadcom's behalf, administer the exams. Each exam has a predefined time allowed. Please confirm timing allotted when registering for your exam. All exams are closed book, which means you may not have any printed material, computers or calculators with you during the exam. Upon completion of your exam you will receive immediate, provisional, on-screen feedback on your scoring.

For more detailed information about Broadcom Technical Specialist Exams and other Broadcom Partner certifications, please visit the Broadcom Certification Program page at <https://www.broadcom.com/support/education/software/certification/all-exams>

Recommended Experience

To supplement the education and training materials provided to prepare for this exam, it is recommended that the candidate has at least 3-6 months experience working with Clarity in a production or lab environment.

Exam Description
