HIPAA and HITECH Awareness Training

Symantec.

HIPAA regulations mandate a security awareness and training program for all members of its workforce, including management.

Symantec provides interactive training for anyone under the HIPAA umbrella.

- Comply with the stringent state and federal privacy laws and reduce risk of breach, fines and damage of reputation.
- Minimize the risk and impact of human frailties.

- Foster a culture where privacy and security are valued and your staff understands the risks of their actions.
- Security is a "people issue" - take it directly to your people.

Train your staff on the policies and procedures on protected health information to ensure your members can effectively carry out their functions.

Benefits for your employees

- Know what's expected
- Understand the risks and impact of your actions
- Understand the do's and don'ts of IT security and PHI privacy
- Training that is not punitive and time-consuming
- Anywhere, anytime instruction

Automate your awareness training

- Reliable training that captures all staff, including our new hires
- Obtain immediate feedback and provide proof of concept
- Easily deploy in your own environment and run reports for audits on your own Learning Management System
- Efficiently implement corrective measures
