

SYMANTEC™ INDUSTRIAL CONTROL SYSTEM PROTECTION

Specific Program Documentation

The CA software program(s) ("CA Software") listed below is provided under the following terms and conditions in addition to any terms and conditions referenced on the CA quote or other transaction document entered into by you and the CA entity ("CA") through which you obtained a license for the CA Software. These terms shall be effective from the effective date of such ordering document.

Program Name: Symantec Industrial Control System Protection Appliance

1. DEFINITIONS.

"Appliance" means the Industrial Control System Protection ("ICSP") appliance, a physical appliance for scanning Universal System Bus ("USB") devices.

"Managed Device" means a single physical or virtual desktop, laptop computer, thin client, workstation, server, or other virtual operating system environment, on which a single instance of an installed Enforcement Driver is installed, executed, or performing services.

"Enforcement Driver" means a driver package installed on a Managed Device which blocks access to USB devices that have not been scanned by the Appliance.

"Software" means the Appliance operating system and Symantec AV Engine.

2. USE RIGHTS AND LIMITATIONS.

You may use the **Software** for the number of **Appliances** set forth in the Order Confirmation. The use of a single **Appliance** is limited to 250 **Enforcement Drivers**.

The **Appliance** will not function, receive malware and OS updates, nor be eligible for software or hardware level support from Broadcom without a Hardware Support Subscription and Software Support Subscription which are each sold separately
