

PRODUCT BRIEF

RALLY SOFTWARE® IS FEDRAMP® AUTHORIZED

A Secure Enterprise
Agile Management
SaaS-Based Solution for
Government Agencies

KEY BENEFITS

Benefit from the added security of a solution that is FedRAMP authorized. FedRAMP is a government-wide program that provides a standardized approach to security assessment, authorization, and continuous monitoring for cloud products and services.

Deliver customer value to market faster. Plan frequently, ship quickly, and respond confidently to market changes.

Align work to business goals. Focus your teams on what matters most by reliably connecting work to business strategy.

Empower teams to work efficiently and reduce waste. Allow users to easily initiate, manage, and share their work.

KEY FEATURES

Simple for teams. Empower teams with a faster, simpler way to begin, track, and navigate work without needing administrative support.

Scalable platform. Our secure, stable, and extensible platform scales and integrates with popular apps and tools.

Customizable dashboards. View the information you need most—in Scrum, Kanban, or custom views.

Real-time status tracking. Track initiatives across all teams, programs, and portfolios.

Reporting and metrics. See team burndown and velocity; measure productivity, responsiveness, and quality.

Overview

Government agencies face many of the same challenges our private sector customers face when it comes to selecting a scalable Agile management solution. They struggle with enterprise agility and transparency. In addition, government regulations mandate that they use highly vetted applications that adhere to stringent levels of security and compliance for cloud-based solutions. Rally Software offers federal government and public agencies a highly secure and scalable solution to handle their Enterprise Agile Management. Rally enables you to plan, prioritize, manage, track, and continuously improve your work so you can deliver the value that your customers need with speed, quality, efficiency, and on a highly secure and compliant platform.

Business Challenges

Are you struggling to align your work to the organizational strategy? Are you missing deadlines, milestones, and delivery dates? Do you have too much work in progress—with people working at maximum capacity—and you still cannot deliver anything quickly? Are you creating unrealistic development roadmaps? Do you lack visibility into progress and risks before it is too late to act? Given the heightened security concerns and tighter budgets of today, government agencies must make shrewd decisions when it comes to the business-critical applications that they use to help them with their Agile transformation.

To overcome these challenges, transformative companies rely on Rally Software. Rally Software enables organizations to deliver more customer value faster by synchronizing work to business priorities, coordinating teams, providing visibility, and delivering on a predictable cadence. You can measure work across teams of teams with real-time visibility, while staying connected to the company's most important initiatives, in a single, scalable, extensible source of truth.

Solution Overview

To drive revenue, win market share, and delight customers, you need to harness the power of Agile with Rally Software. Put Agile at the center of your business to build a fast, responsive, and reliable software delivery engine.

- **Accelerate time to market.** Eliminate bottlenecks and blocks with data-driven planning tools and real-time visibility into work in progress. Rally Software helps you plan and build the highest-priority features and ship them without delay.
- **Connect strategy to delivery.** Link the work of Agile teams to your enterprise portfolio to deliver faster, optimize resources, and maximize return on investment. With Rally Software, you'll get business visibility into delivery status—so you can make better portfolio-steering decisions.
- **Empower your teams.** Equip your business with a predictable delivery engine by focusing your teams on the work that matters. Rally Software provides real-time visibility into status and performance metrics that help teams continuously improve.

RALLY SOFTWARE OFFERS FEDERAL GOVERNMENT AND PUBLIC AGENCIES A HIGHLY SECURE AND SCALABLE SOLUTION TO HANDLE THEIR ENTERPRISE AGILE MANAGEMENT.

“This milestone helps
agencies like ours
make important technical
strides and brings secure
cloud solutions to the
federal market.”

JAMIE HOLCOMBE, CIO
US PATENT AND TRADEMARK OFFICE

Critical Differentiators

- **Intentionally built for speed and scale.** Rally Software is an enterprise-class platform built for coordinating work across multiple teams and programs with large numbers of users and artifacts.
- **Empowers Agile teams.** Features like capacity planning, team planning, and release tracking bring the right work to the right teams at the right time. Team board, personalized navigation, and quick detail pages enable your teams to access the right level and complexity of work to deliver the most important features to your customers.
- **Offers dynamic performance metrics.** Benefit from the only platform that empowers you to measure productivity, predictability, quality, and responsiveness in real time. Get the data to benchmark team performance and continuously improve it according to your top KPIs.
- **Enables collaboration across tools, teams, and time zones.** Streamline collaboration. Minimize task switching and communication breakdowns with threaded chat and a team inbox that aggregates email, feeds, and tool notifications all in one place.
- **Features real-time, reliable progress status.** Leadership can track initiative progress by team, work, time, and even funding with the Investments feature.
