

Top 5 Reasons to Use Broadcom's Output Management

1 Cost Reduction

Viewing documents online reduces printing and paper-related costs, including savings on paper, ink, toner, equipment maintenance, and energy consumption.

2 Environmental Sustainability

Reduces the need for printing, which lowers the carbon footprint, saving trees and improving the environment.

3 Seamless Remote Working

Uninterrupted workflow for remote employees in today's complex work environments by transitioning in-office printing to web-based document access.

4 Maintain Regulatory Compliance

Meet legal and compliance standards by ensuring documents are stored, archived, and managed in compliance with regulations.

5 Reduce Storage Costs

Utilizes virtual tape, which is more cost-effective than traditional disk storage, while still maintaining quick and reliable access to data when needed.

“Nobody knows how important output management is until something goes wrong.”

Core Infrastructure & IT Operations Manager at a very large UK Bank

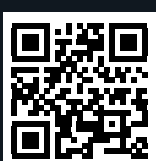

Quantifying the Benefits

\$2.37M

Print reduction saves over \$2.37M each year.

5,706 Trees

View/Deliver reduces environmental impact by sparing 5,700 trees each year.
