

2025 VMware Cloud Foundation Certification Paths

2025 VMware Certification Paths

VCF Focused - Architect, Implement and Support

Professional Level

VMware Certified Professional (*VCP)

VCP-VCF Architect

VMware Cloud Foundation:
Solution Architecture and
Design

Exam: 2V0-13.25

VCP-VVF Administrator

VMware Cloud Foundation:
Build, Manage, and Secure &
Automation and Operations

Exam: 2V0-16.25

VCP-VCF Administrator

VMware Cloud Foundation:
Build, Manage, and Secure &
Automation and Operations

Exam: 2V0-17.25

VCP-VVF Support

VMware Cloud Foundation:
Troubleshooting

Exam: 2V0-18.25

VCP-VCF Support

VMware Cloud Foundation:
Troubleshooting

Exam: 2V0-15.25

Recommended training

Certification Exam

VCP VMware Cloud Foundation - Administrator

VMware Certified Professional – VMware Cloud Foundation Administrator (2V0-17.25)

Recommended course:

VMware Cloud Foundation: Build, Manage, and Secure
VMware Cloud Foundation: Automate and Operate

VMware by Broadcom Solution Knowledge

Validate expertise in identifying the components and use cases for the *VMware Cloud Foundation* solution.

Install, Configure, and Manage the VMware by Broadcom Solution

Validate skills installing, configuring, and managing the *VMware Cloud Foundation* solution.

Optimize the VMware by Broadcom Solution

Validate ability to optimize performance and efficiency with the *VMware Cloud Foundation* solution

VCP VMware vSphere Foundation - Administrator

VMware Certified Professional – VMware vSphere Foundation Administrator (2V0-16.25)

Recommended course:
vSphere Foundation: Build, Manage and Secure

VMware by Broadcom Solution Knowledge

Validate expertise in identifying the components and use cases for the *VMware vSphere Foundation* solution.

Install, Configure, and Manage the VMware by Broadcom Solution

Validate skills in installing, configuring, and managing the *VMware vSphere Foundation* solution.

Optimize the VMware by Broadcom Solution

Validate ability to optimize performance and efficiency with the *VMware vSphere Foundation* solution

VCP VMware Cloud Foundation Architect

VMware Certified Professional – VMware Cloud Foundation Architect (2V0-13.25)

Recommended course:

VMware Cloud Foundation: Solution Architecture and Design

Design VMware Cloud Foundation Solutions

Validate skills in designing VMware Cloud Foundation solutions, focusing on the key design characteristics for availability, manageability, performance, recoverability, and security (AMPRS).

Manage VMware Cloud Foundation

Validate ability to design and manage a VMware Cloud Foundation environment, including monitoring, capacity, planning and completing migrations to VMware Cloud Foundation.

Optimize the VMware by Broadcom Solution

Validate capability to convert business objectives into logical and physical design by assessing and documenting risks, assumptions and constraints, ensuring alignment with entire Software Defined Datacenters (SDDC) and customer technology landscapes.

VMware Certified Professional – VMware Cloud Foundation
Support (2V0-15.25)

Recommended course:
VMware Cloud Foundation: Troubleshooting

VMware by Broadcom Troubleshooting Tools and Processes

Can identify the appropriate tools and techniques required to troubleshoot issues within the VMware Cloud Foundation platform.

VMware Cloud Foundation - Diagnostics and Troubleshooting

Validates a candidate's ability to perform basic diagnostics and troubleshooting of VMware Cloud Foundation components to identify root cause.

VMware Cloud Foundation - Issue Resolution

Validates a candidate's ability to quickly resolve common full-stack VMware Cloud Foundation issues as they present themselves.

VMware Certified Professional – VMware vSphere Foundation Support (2V0-18.25)

Recommended course:
VMware Cloud Foundation: Troubleshooting

VMware by Broadcom Troubleshooting Tools and Processes

Ability to identify the appropriate tools and techniques required to troubleshoot issues within the *VMware vSphere Foundation*.

VMware Cloud Foundation - Diagnostics and Troubleshooting

Validates a candidate's ability to perform basic diagnostics and troubleshooting of *VMware vSphere Foundation* components to identify root cause.

VMware Cloud Foundation - Issue Resolution

Validates a candidate's ability to quickly resolve common full-stack *VMware vSphere Foundation* issues as they present themselves.

Let Us Help You Future Proof Your Career

When innovation happens at the speed of light. It's hard to keep up
Broadcom's VMware Cloud Foundation (VCF) certifications are designed to prepare IT professionals to build and manage modern private cloud environments using VMware technologies. With role-based paths for administrators, architects, and support professionals, VMware Cloud Foundation certifications help I.T. pros stay competitive and aligned with evolving private cloud infrastructure trends.
