VMware Learning Subscriptions
Advance Your Knowledge and Your Career

Personalize Your Learning Experience

Get ready to take your IT training to the next level. VMware Learning Subscriptions are designed specifically for IT professionals and organizations. To succeed with software solutions, you need a learning solution that is flexible, effective and prescriptive to provide knowledge you or your organization needs to quickly achieve results. We offer three comprehensive learning tiers to help you meet your goals.

1. 24x7 access to content continuously updated by experts

2. Prepare for VMware certification with content from the source

3. Anywhere access to content in a variety of formats

IT Learning Matters

The IT skills gap costs companies more than US$300 billion worldwide due to delayed release of products, missed revenue or increased expenses. Fill that gap today.

Basic Tier

Individual Learning — <8 Hrs

General overviews of VMware product and solution features and benefits. Ideal for individual IT professionals or consultants.

Premium Tier

Individual Learning — 8+ Hrs

Intermediate-level courses that focus on the how-to process steps of a VMware product or solution. Includes a demo or simulated lab. Experience with VMware products or solutions is recommended. Ideal for individual IT professionals or consultants.

Enterprise Tier

Team Learning — 24+ Hrs

Provide courses to multiple employees no matter where they're located. Advanced-level content focuses on complex process steps and troubleshooting. Includes live labs with instructor support. Ideal for IT department teams.
